PROFILE

WAYFINDER CARE COMPANY

Corrin Wagner

Owner & Client Care Navigator

Corrin Wagner is a Home Care Operations and Client Services Manager with Wayfinder Care Company, bringing hands-on hospice care experience into everyday client support.

Corrin's path began in hospice caregiving, where she supported clients and families with daily care, medication reminders, and steady companionship — assisting with bathing, dressing, mobility, and the everyday details that help clients stay comfortable and safe.

That foundation now shapes how she manages caregiver scheduling, leads care consultations, and completes supervisory visits across the teams she supports. As an on-call manager, she responds to urgent client and caregiver needs and keeps communication clear between caregivers, families, and leadership.

With more than 10 years of customer service experience and a background in foster care respite, Corrin brings patience, consistency, and genuine care to every family she serves.
